# Workiva cloud platform simplifies and accelerates ESG reporting for companies across the globe.

Workiva's integrated ESG solution brings together teammates, datasets and data sources to deliver high-quality disclosures to important stakeholders.
Collect any data, from anywhere

Automate the collection of data and connect directly to source systems.

Build an ESG strategy with any and all frameworks

Utilize globally recognized ESG frameworks or use a proprietary company framework to compile data.

Get audit-ready

Work in the same audit-ready environment as financial reporting teams to ensure ESG disclosures stand up to the highest level of scrutiny.

Report with confidence

Consolidate and connect information across sustainability reports, surveys, statutory disclosures, annual reports, SEC filings, earnings call scripts, and more with accurate, consistent data.

XBRL tagging

Achieve greater transparency and accountability with full XBRL and Inline XBRL® capabilities.

xBRL Certified Software™
